

You Like Alright

(Hein/Hoare)

You like my style, my silly talk
My sugar smile and my back street walk
You like, you like what you can get from me
It's like the click of high heeled shoes
One for each time that I refuse
You like alright, what you can get from me

Refrain

Oh no you're choosing madness
Don't you know with all your sadness
I can't be satisfied
Game over, the pain is for free
It's so long
Don't need to see ya
And waiting there wouldn't want to be ya
It feels so good, so good when you're lost

Don't squeal and squirm, you can't get loose
You got your neck right in a noose
You like, you like what you can get from me
You hang around, you're on a string
But you don't know a goddamn thing
You like alright, what you can get from me

Refrain

If your mind stings, can't get it right
You cannot stop that itchin' bite
Still you like, you like what you can get from me
The promises each time we meet
Might be bitter but they're oh so sweet
You like alright, what you can get from me
